Subject: East Lake Bluffs drainage

Dear Steve,
We are having huge ruts carved into our drive at 6747 E Lake Bluffs. Lot 1&2. The water comes down into my property from lot 3, forms a small river across my lot and raises over my driveway, and washes out the base of my driveway and in front of the retaining wall. The drain from across the road is completely filled and non functional. I thank you for helping us plan these improvements.
Thanks
Jim Cantwil

Proposed Lake Bluffs Drainage District, Board of Determination meeting – 10/29/2020
