**Subject:** The following is a Letter for Public Comment  
**Date:** Sunday, September 19, 2021 10:57:49 AM

---

To say that I was dismayed at the arrogance of the 4 commissioners deciding against the ECDC voter approved mileage is definitely an understatement. How they can say "When the voters are wrong, the board has the authority to override the result" is absolutely unbelievable.

The mileage was voted on and passed because the voters understood the long-term benefits of ECDC. It is totally irrelevant whether or not the mileage passed in certain areas and the percentage of those voting. What is relative is that the voters have spoken and did vote to approve the mileage. Period...end of story.

I did vote for the mileage since I understood that this was a good use of tax dollars and never in my wildest dreams would I think that 4 commissioners would make such an arrogant and idiotic decision. They are not serving the public and should be held accountable for such foolish actions.

I do wish this letter to be included in the Public Comment.

Lillian Mahaney/Leland
