To Whom it May Concern(which should be all voters in Leelanau County),

Just when I was giving kiddyos to Leelanau County for having the highest rate of COVID-19 vaccinations in the state, I read about the ridiculous statements from the Commissioners regarding the \$0 funding proposal for early childhood education. That Will Bunek would make a statement that basically strips the voters of their votes because he knows what is best for them is both absurd and dangerous to democracy. I would suggest a recall of all members who decided to take it upon themselves to thwart the voters of Leelanau County!
