To Whom it May Concern,

I respectfully request that Patricia Soutas-Little resign her seat immediately on the board of health directors. I feel she is unfit for the position due to lack of solid data surrounding masking our children. I feel that she is a threat to the health and safety of our children.

In fact, I feel that the real experts in the field of exposure, industrial hygienists, are being ignored. I ask that you please take time to watch the following videos from an expert giving scientific data.

He has many videos that discuss masks that can be found in his podcasts found on rumble.com under petty podcasts.

Additionally, I fully support a yes vote on the decrease of the health department's budget where early childhood programs are involved. As stated, there is enough on the coffers to continue the programs currently in place. Regardless, it's time to fight fire with fire. Our children's freedoms depend on it.

Thank you.
