
Leelanau board of commissioners

Concerning the recent comments about the early childhood program. As I see it the people of Leelanau county need working class families. We also need to do whatever we can to attract them or to keep the ones we have.

Mr Bunek one of your jobs is to make whatever the voters of Leelanau county vote for happen. Your job is not to try and correct the voters the way YOU see fit! We take our voting rights very seriously here. A lot of better people than us have died protecting them.

Some of the commissioners were against this program and vote from the get go. And obviously they will stop at anything to diminish its effect.

Mr Bunek your viewpoint is a cancer to our democracy!

Sincerely

Tim Sherwood
