Subject: Early childhood funding

Dear Commissioners,

I am writing in support of using the monies that were approved by the voters for the development of early childhood programs that address varied needs of the young children of our community. I am proud of the people of this community who understand that families with young children are worth investing our tax dollars in to support.

As a former public school teacher of this state, I have seen what a difference early childhood programs have made for the students I worked with over the years. The support of various programs provides opportunities for families of young children to enhance physical, emotional, social and educational needs. With these types of opportunities provided by our county, we are investing in the health of our community now and into the future.

I again voice my support for using the approved mileage for childhood programs to be placed in the budget. I wish my email to be placed in the public record for both the Sept. 20, 2021 special meeting and the Sept. 21, 2021 scheduled budget meeting.

Respectfully,

Rev. Elizabeth A. Hill
