Dear County Commissioners,

I am writing this letter in support of maintaining the Millage that we voted for to continue the work done to support families with young children in our county. This work could not be more important and I believe that every dollar spent returns value to our county. I attended the meeting yesterday and was deeply touched by the words of some of the young parents who have utilized these services. Toward the end of the meeting, there was talk of a slight compromise in the amount of funding. While I would prefer full funding, I could support this compromise. Please add this to the record and please take care of our young families tonight!

Sincerely,

Virginia H. Woessner
Retired Glen Lake School Counselor
Glen Lake School Board Trustee
