**Date:** Monday, October 11, 2021 12:47:42 PM

---

Please know that we, as your constituents, depend upon and support our county Health Department. Decision making during this pandemic is difficult enough, without added comments and opinions from non-experts in this field. To my knowledge, none of the commissioners hold any level of medical education. They should NOT be making unsubstantiated statements with regard to the pandemic or other health-related topics. Please focus on the jobs you were hired to do, and leave medical issues to the medical EXPERTS. Specifically, our Health Department  
Please forward to all county commissioners.
