Seeing the photo in the October 7 issue of the Leelanau Enterprise with Mr. Robbins going out for a trip to the Manitowish on October 1 with the Sheriff and Marine Officer Eddington was an eye opener. Just out for a joy ride fellas? New commissioners are given an opportunity to visit the islands and the last time this trip was scheduled Mr. Robbins cancelled and my "new" commissioner was disappointed. My commissioner was not even asked to be a part of the October 1 excursion. I'd call that wasteful spending by the good old boys.

It seems like money is flowing freely to advance the Republican agenda. I'll wager the conversation would have been a bit different if my commissioner had been included.

Stop the creation of two new departments from being in the budget. It's nothing but a waste of money.
