Subject: Support for out county's health department and personnel

Ms. Crocker,

Please send this to the county commissioners. Thank you.

County Commissioners,

There are government services that many of us, unfortunately, take for granted. Since the onset of the Covid pandemic, one of those normally unsung services, the health department, has demonstrated its tremendous value. From providing information, to implementing life-saving mandates and to providing testing and vaccinations, the health department has been outstanding, professional, and absolutely required.

I ask each of you to vote "no" to any reduction in resources needed by the health department. I also ask each of you to say "yes" to recognizing the invaluable work of the people who work for the health department on behalf of each of us in Leelanau County.

Thank you.

David
