Subject: Lies - Masks - Funding of the Benzie Leelanau District Health Department (BLDHD)
Date: Tuesday, October 12, 2021 9:53:37 AM

Please enter this email to the record for the the BOC's October12, 2021 meeting.

My name is John Fletcher. I live in Lake Leelanau.

Commissioner Bunek has continued his litany of lies, this time in the Leelanau Enterprise's October 7th Forum, page 4, "Rationale behind lowering millage." Commissioner Bunek owns this shame with his manipulation and efforts to defund the childhood millage.

The BOC has a responsibility to follow the BLDHD's mask mandate in schools. We expect all the Commissioners to respect the mandate and also ensure that Leelanau County continues to fund the BLDHD. The BLDHD is to be commended for its integrity and continuing efforts fighting Covid-19.

Commissioners Bunek, Robbins, Lautner and Rushton persistent finger pointing and verbal assaults on the BLDHD and Lisa Peacock are self-serving and politically motivated. Their biased opinions have no relationship to science, facts and data. Their comments are also consistent with their failure to follow the County 2020 Covid-19 Plan and wear masks at all BOC public gatherings. No masks and even a Commissioner's recent statement that the China, Wuhan virus is" just like the flu" are appalling.

Honesty, integrity, fairness are essential along with fiscal responsibility in the BOC's service to Leelanau County residents.
