Subject: Support our Health Department
Date: Monday, October 11, 2021 9:34:23 AM

I write in support of our Leelanau-Benzie Health Department. We deserve to feel proud of the high vaccination rate we've achieved in Leelanau. Thanks to our health department our COVID infections have stayed low. They've protected us and kept us safe with factual information and science-based policies.

I urge you to fully fund the health department as we move forward to successfully manage this pandemic.

Please forward to all commissioners.

All the Best,

Ruth Winter
