Subject: New Departments? WHY?

My name is Ruth Winter and I'm a resident of Solon Township.

I write to you as I cannot understand the proposed solution of two new departments to solve WHAT? This proposal is an ongoing expensive, solution to a problem that has not been identified. We need to hear the rationale for this proposal.

Meanwhile do not support the creation of these departments until the public is allowed to understand its purpose. We need an opportunity to understand an expenditure of that magnitude.

Best,

Ruth Winter
