Please distribute this letter to all commissioners and read it at the meeting on September 21, 2021.

Dear Commissioners,

My husband and I voted to approve the .253 mill property tax for Early Childhood Services. The measure passed and the voters have spoken. How can you not understand that in a democracy the elected officials must follow what their constituents want? Please support our young children and families by supporting the millage.

Sincerely,
Dennis and Carole Becker
