Subject: Leland Dam Authority

Date: Tuesday, April 6, 2021 9:17:04 AM

Hello,

I see on the agenda Mr. Culman is going to discuss lake levels. I read prior meeting minutes that states April 15th is the time the dam is raised, but I would like to confirm that is on track for this year. If he could confirm when the levels should be coming up that would be greatly appreciated. Both North and South ends are low.

I will be watching via YouTube. Thank you in advance for the information.

Thank you,

Dawn Lund
