<u>Members</u> Dan Heinz, Chairman Rick Foster, Vice-Chair John Arens-Sect/Treasurer Deborah Allen Gwenne Allgaier T. Eftaxiadis David King

> <u>Director</u> Trudy Galla

A regular meeting of the Leelanau County Brownfield Redevelopment Authority (LCBRA) was held on Tuesday, May 16, 2023 at the Leelanau County Government Center.

#### CALL TO ORDER

Meeting was called to order at 10:01 a.m. by Chairman who led the Pledge of Allegiance.

#### **ROLL CALL**

Members Present:	D. Heinz, D. Allen (10:05 am), G. Allgaier, J. Arens, D. King, R. Foster T. Eftaxiadis
Staff:	T. Galla, Director

Public: T. Searles, L. Mawby, Zach Hillyer, J. Stimson

#### PUBLIC COMMENT - None

#### **DIRECTOR COMMENTS**

Galla noted a late agenda item for consideration, and mentioned a scholarship opportunity for the 2023 Brownfield Conference.

#### **CONSIDERATION OF AGENDA**

Motion by Eftaxiadis, seconded by Foster, to accept the agenda with the addition of an application from Centerville Township added as New Business #3 item. Motion carried 6-0.

**CONFLICT OF INTEREST** – None

#### **CONSIDERATION OF APRIL 18, 2023 MINUTES**

Motion by Foster, seconded by King, to approve the minutes as presented. Motion carried 6-0.

#### CONSENT AGENDA

a. Fishbeck – EPA Assessment Grantb. Fishbeck – General Consulting and TIF Management

#### Motion by Foster, second by Eftaxiadis, to accept the consent agenda as presented. Motion carried 6-0.

**OLD BUSINESS** – None

#### **NEW BUSINESS**

Part I Application – Peninsula Housing – Consider approval and request for Work Orders.

Galla pointed out that she submitted a memo on page 10 of the packet with a recommendation. Larry Mawby was present to review the application and submitted the \$150 application fee. In the past, the LCBRA has waived fees for non-profits or reduced the fee. After hearing from Mawby, the LCBRA could accept the application and direct Fishbeck to work with Mawby to prepare the Work Order and have it come back to the LCBRA you at the next meeting for consideration. There is also an eligibility determination that has to be completed and submitted to EPA to make sure we can use the funds for this project. (Deb Allen present)

Larry Mawby from Peninsula Housing stated they acquired the property at the end of December 2022 and had a Baseline Environmental Assessment (BEA) done. He would like to take down the buildings but to do that, he needs more assessment work. The BEA indicated arsenic and lead in the soils and lead paint in the house. They don't know about asbestos. Under the EPA grant, they are applying for assistance. He noted they are also applying

for two other grants from other agencies involved with planning and demolition work. They may also be interested in a plan for capture of TIF. He was not clear how the EPA funds could be used for the assessment and planning as this is the beginning of a long process on this site. Mawby asked for the LCBRA to consider this useful project. He also stated that as a non-profit who has to watch the dollars, he was also asking for consideration to waive the application fees, or discount the fees. They will be looking at submitting the Part II Application which does have a fee for other work.

# Motion by Allgaier, seconded by Eftaxiadis, to accept the Part I application and waive the application fee of \$150 and request Director Galla and Fishbeck work with Peninsula Housing and bring back a Work Order in June for consideration.

Arens asked what the property was currently zoned and Mawby said Rural Residential, and there is an overlay district to support eight units of housing per acre. The township is in the process to amend the zoning ordinance. The current density is supposed to remain.

Heinz asked if a special land use permit was needed and Mawby replied, yes.

Eftaxiadis remarked that as related to eligibility determination from EPA for purpose of quantifying the property for use of the EPA grant funds, that should not be a problem because there is lead contamination on the property. There is also arsenic which, unlike the state, the EPA does consider arsenic to be a contamination to qualify. For purposes of TIF, if the property remains in the future as owned by a non-profit, then TIF will not work. However, you could make a portion of the development taxable. This way, there is some TIF generated and you can back calculate the eligible expenses, how much TIF you need and then determine how many parcels you end up with that would be taxable.

Mawby stated they are a community land trust (CLT), non-profit. However, property owned by a CLT is taxable. We do pay taxes on what we own because we get income from it. It would work fine for CLT to own property with TIF.

Heinz asked about the arsenic issues and if there will be well water or village water. Mawby said it will probably be a Type I water system that they will install. Arsenic is in all agricultural soils probably throughout the state. There are certain things you don't want to do on those grounds but you can pave it over, build buildings etc. Herman Park was part of this original farm. At the time the township zoned the property the way it is, there was an agreement between the township and the village to provide municipal services to the property. We have been talking with both the township and village. The township is supportive of it and the village is still talking about the sewer. We may be doing onsite sewer and water. It would be nice if it was all part of the village system. The Rural Readiness grant we are applying for, hopefully gives us the site planning we need. We are zoned for 80 units on that parcel. If we do onsite septic and a Type I well, we can fit 80 units on there. It might be more appropriate to annex property to the village. If that happened, we can't say what the density would be. There are pros and cons being annexed to the village. The township is okay with it being annexed and they still get their taxes.

Arens asked where the force main is for the sewer. Mawby said it is a gravity main and terminates at intersection of Herman and County Road 633. Sewer service is not that far away. Water terminates at corner of 4<sup>th</sup> and Elm St, right in front of the school.

Eftaxiadis requested that when Fishbeck does the assessment to make sure there are enough ground water samples.

#### On a voice vote, the Motion carried 7-0.

#### **Brownfield 2023 Conference in Detroit**

Members discussed attendance at the Brownfield conference in August in Detroit.

Motion by Allgaier, seconded by Foster, to have the following participants attend in whole, or in part, the 2023 Brownfield Conference in Detroit: T. Eftaxiadis, D. Allen and G. Allgaier, with possibility of Galla, and Foster

#### to attend if they have no conflicts. On a voice vote, the Motion Carried 7-0.

#### **Centerville Application for Assessment Work**

Galla reviewed the application and stated it was the result of the Supervisor coming to talk with Allen and herself about this site. They are not sure of contamination issues at this old dump site, if there are problems with the soils or any migration of contamination. As part of the EPA assessment grant, Galla has reached out to all townships and villages to ask for the location of the old dump sites. Some of them had more than one. The township would like to assess the property to determine their next steps, and if they can use it or sell it. It would require a Work Order to come back from Fishbeck for consideration next month.

Motion by Eftaxiadis, seconded by Allen, to accept the application from Centerville Township for assessment of suspected dump site and authorize Fishbeck to work with the township to determine the needs for assessment through the EPA assessment grant, and waive the application fee. Motion carried 7-0.

#### FINANCIALS Claims & Accounts

Motion by Foster, seconded by Arens, to approve Claims & Accounts in the amount of \$6,116.25. Motion carried 7 -0.

#### Post Audit, Budget Amendments, Transfers - None

#### **CORRESPONDENCE/COMMUNICATION ITEMS - None**

#### PUBLIC COMMENT

Mawby told members to keep up the good work.

#### **DIRECTOR COMMENTS**

Galla commented on the payment made to the state for the loan on the Leland site. This is the annual payment made to the state and they contacted Galla asking about the status. It was approved and mailed 2 months ago so they will have to track it down. She also had a discussion with our EPA representative yesterday, questioning our projects. In our application to the EPA and how we were scored, we had identified targeted and priority areas and Galla was informed the project in Leland Township was not in a priority area. Galla acknowledged that with the assistance of Fishbeck, the Work Program that was prepared for EPA after we received the grant award identified priority and non-priority sites throughout the county for our projects. There were a few other things she questioned. We need to be sure we are meeting all of our requirements.

Eftaxiadis asked what else was questioned and Galla stated she was questioned our eligibility determination wording. We used wording that EPA concurred with the state determination on the petroleum site and EPA does not want that wording when the state has to make the eligibility determination.

Galla stated we are doing fine, we just need to be mindful of those sites which may not be in our targeted, priority areas. You may even want to have the wording of the motions handled differently for those sites.

#### **MEMBER / CHAIRPERSON COMMENTS**

Heinz asked about open houses and follow-up. Galla replied there were two open houses with relatively small turnout but great questions were raised at each session. There was a gentleman who left early at one of the sessions and Galla contacted him later and pointed out other things we may be able to assist him with on his project. He reached back to Galla and was interested and will follow up in the future. Galla noted a few people contacted her on projects but they don't appear to be ready yet.

Heinz asked about the meetings Allen and Galla were doing with the townships. Galla replied that the Centerville

application today was the result of meeting with the Supervisor. Having these small meetings at the township level is working well. Allen added that they did one round of calling all the townships and will do another round of calling to set up some more discussions.

Eftaxiadis asked if the meetings were with the supervisors and Allen said yes.

Arens commented on the dump sites throughout the county and asked how information would be gathered. Galla emailed all township and village clerks and Supervisors and asked if they could help identify the old dump sites. Some of the information is anecdotal about being on the end of a road or on someone's farm. We also have old aerials that we can access but we need a starting point. It will be good to know where these dump sites are at, even if we don't use EPA funds on the sites.

Arens said it might be wise to bring these up at a county board meeting and see where those sites are actually located. Perhaps this is something Fishbeck can get involved in or use another data source. It seems like it should be a priority for us to check out these old dump sites.

Foster added that many farms had dump sites, things were sprayed and put on the ground and we would not do that today. Farms had dumps back in a corner of their property.

Mawby noted there are a significant amount of private dump sites in this county and most likely won't be identified. One of the nice things of doing conservation easements with the Leelanau Conservancy is those have to be identified and cleaned up before a conservation easement is done. There are lots of them.

Heinz commented on the Elmwood Township former dump that is a block away from where he lives. Before he purchased, he had to get paperwork on that site because of the monitoring wells there to determine where the plume was going. There are over 150 homesites now in that area.

Eftaxiadis asked if we have site inventory task listed in the EPA grant program and Searles replied it is not specifically set up in this grant because we already developed it. We are doing updates to the list.

Eftaxiadis noted that EGLE has databases where they have documented any suspected dump sites. He has not looked at those for the county, but could. We could also consider creating an assignment for Fishbeck to look into that. Also, by looking at state health department site and EGLE, we can look for inventory of either Type I community well or residential wells that have exceeded some contamination - primarily arsenic. Once we look at those and the area around through historical area photos, we would be able to see if there are any suspected dump sites. And, as part of a work task, we could try and find people that may have some information such as old timers, farmers, supervisors, etc.

Arens said in a former life in another area, he was very aware of a road commission that would take their various stuff to the end of a road and dump it off the back of the truck. This was a government entity doing this. Old timers will know of sites.

Eftaxiadis asked about creating some type of list as part of the outreach under the EPA grant. Galla replied that we have taken in some nominations of suspected sites and will turn those over to Fishbeck as we work on updating the inventory list. Eftaxiadis commented on the Act 307 inventory for suspected dump sites. Further discussion was held on potential sites and Galla noted the Super Fund site in Elmwood township. EPA will be cleaning that up for some time.

King requested we look at our policy on fees and determine what we are going to do with waiving fees, or not waiving fees. Galla said she can put that on the agenda for next month for consideration. Years ago, the schedule included language that the LCBRA would consider waiving fees and everyone asked to waive fees so that might not be the answer but the LCBRA can review it next month for potential changes.

ADJOURN - Meeting adjourned at 10:51 am.

# Memo

TO:	Trudy J. Galla, AICP, Director – Leelanau County Brownfield Redevelopment Authority
FROM:	Therese Searles and Jeff Hawkins
DATE:	June 12, 2023
RE:	General Consulting and TIR Management Monthly Updates and Invoices

This memorandum serves to provide information regarding invoices and updates that are being presented to the Leelanau County Brownfield Redevelopment Authority (LCBRA) for services rendered on various projects related to General Environmental Consulting activities.

Please find attached several items for your consideration:

#### 1. General Services (W.O. #2-GS)

#### Update:

Fishbeck has entered into an agreement of service with the LCBRA for environmental consulting services related to the County's FY22 EPA Assessment Grant. Applicable to this Agreement, Work Order Number 2-GS, an overall general services work order, dated April 18, 2023, was approved at the April LCBRA regular meeting. Activities subject to this work order may include assistance with existing Brownfield Plans, new project communications, evaluating new State reporting requirements, and other project assistance as needed. There are no invoices for consideration this month.

#### Project Invoices for Consideration:

N/A

#### 2. 2023 Tax Increment Tracking and Annual Reporting (W.O. #1-GS)

#### Update:

Fishbeck has established a tax increment financing (TIF) tracking system for the LCBRA for its existing Brownfield Plans. The LCBRA has engaged Fishbeck to manage the tracking of tax increment collection and reimbursement associated with the LCBRA's existing brownfield plans for 2023 by updating and sending out Statement of Account twice a year to coincide with tax collection periods. Reimbursement Analysis will also be updated for the LCBRA twice a year. As we have assisted in previous years, Fishbeck will also assist the LCBRA with Annual Reporting through the MEDC online portal in August of 2023. Fishbeck tracks the collection of TIR received on a continual basis as those checks come in and are forwarded on by Trudy Galla. Activities included in this month's invoice were related to review of TIF received associated with delinquent taxes and communication with Trudy Galla and John Gallagher.

#### Project Invoices for Consideration:

# Memo

TO:	Trudy J. Galla, AICP, Director – Leelanau County Brownfield Redevelopment Authority
FROM:	Therese Searles and Jeff Hawkins
DATE:	June 12, 2023
RE:	FY22 EPA Grant Updates and Invoices

This memorandum serves to provide information regarding updates and invoices that are being presented to the Leelanau County Brownfield Redevelopment Authority (LCBRA) for activities and services rendered on various projects related to the EPA Brownfield Assessment Grant (4B-00E03213-0).

#### 1. QAPP Project No: 230506 – W.O. # 1

#### Update:

Jeff Hawkins and Therese Searles of Fishbeck, along with Trudy Galla, attended a virtual Pre-QAPP call with Sarah Gruza, EPA Project Officer on February 28, 2023. Preparation of the QAPP is complete and has been submitted to and approved by the EPA. QAPP self-certification was found to be complete and satisfactory on May 8, 2023. The lump sum billing for preparation of the QAPP was approved at the May meeting so there are no invoices for consideration this month.

#### Project Invoices for Consideration:

#### N/A

# 2. Community Outreach and Programmatic Project No: 230505 – W.O. # 2

#### Update:

Programmatic activities relate to preparing work orders, preparing meeting materials, setting up/inputting ACRES information, and communications with the Director of the LCBRA regarding implementing the grant activities. Two informational sessions were held in April to inform attendees on grant funding opportunities. By holding these events in April, the LCBRA is right on track with the proposed grant timeline of completing two community open houses by Quarter 3 of fiscal year 2023 (April-June, 2023). Activities included in this month's invoice for consideration include preparing meeting materials, discussions with the Director regarding new projects in Empire, and making project updates in ACRES.

#### Project Invoices for Consideration:

Invoice #424161 (\$660.25).

# 3. Bluebird Redevelopment Project - 102 & 103 E. River St. and 101 E. Main St., Leland, MI Project No: 230504 – W.O. # 3

#### Update:

Skip (Daryl) and Lynn Telgard submitted a project application to the LCBRA for their Bluebird Redevelopment Project in Leland. The Telgards are the 3<sup>rd</sup> generation to run the Bluebird restaurant and tavern, founded in 1927, situated one block from Fishtown and serving both locals and tourists. Historically, the property was used for the production of charcoal for a nearby iron works in the 1800s. The property is currently developed as two restaurants, one storage facility, one retail store, and associated parking. The property at 101 S Main Street was formerly used as a gas station, with a leaking underground storage tank (Facility ID 00036063) which has since been closed. The developer intends to demolish the current building as it is deteriorating, including a failing roof, ventilation system, and windows. In addition to its deteriorating status, many code updates have occurred since its original construction and the building has been determined to be functionally obsolete by the local assessor. It is also unknown whether asbestos-containing materials are present which will need to be determined prior to demolition. The Bluebird will be rebuilt as a smaller restaurant with a rentable commercial space, occupying less land and located closer to the river. The owners are also working with the Michigan Department of the Environment, Great Lakes, and Energy (EGLE) through its permitting process to stabilize the riverbank by repairing a seawall. Further assessment may be performed as needed related to historical charcoal use. Private investment is anticipated at \$3,000,000, with the creation of 25 jobs anticipated. The developers have requested support from the LCBRA through the preparation of a brownfield plan to allow for the reimbursement of eligible costs (work order #3), which was approved by the LCBRA on February 21, 2023. A petroleum eligibility determination was received from EGLE for the use of petroleum grant funds on March 16, 2023 and EPA has concurred with the LCBRA's eligibility demonstration for the use of hazardous substance grant funds as of March 22, 2023. Fishbeck, the Director, the developers, and the township assessor met on March 21, 2023 to discuss next steps. The assessor prepared an affidavit of functional obsolescence for the property. The Telgards have requested additional support from the LCBRA to include a Phase I ESA, pre-demolition asbestos surveys for both structures on the property, and a conceptual budget for a Phase II ESA, if needed. The LCBRA approved an amended work order (WO#3, Amendment No. 1) on April 18, 2023. The Phase I ESA is complete and identified one REC pertaining to remaining tank(s) closed in place and the lack of assessment to determine whether impacts to the subject property exist as a result of these tank(s). Fishbeck prepared the Health and Safety Plan (HASP) and Sampling and Analysis Plan (SAP). EPA accepted the HASP and approved the SAP on May 18, 2023. The asbestos survey field work was completed at the end of May. We are waiting on laboratory results to finalize the asbestos surveys.

#### Project Invoices for Consideration:

Invoice #424160 (\$8,661.32).

#### LEELANAU COUNTY BROWNFIELD REDEVELOPMENT AUTHORITY (LCBRA) FEE SCHEDULE

#### A. Brownfield Project Application Form – Part 1

A Brownfield Project Application Form - Part 1 will be required to introduce a proposed development project to the Leelanau County Brownfield Redevelopment Authority (LCBRA) and request initial consideration of Brownfield Incentives.

BROWNFIELD PROJECT APPLICATION	APPLICATION FEE
Part 1 Application	\$150.00

All Brownfield applicants will be assessed an Application Fee of \$150.00 for consideration of the Brownfield Project Application Form - Part 1 Application. The Part 1 Application Fee is payable upon submittal. The fee will be non-refundable regardless if the application/request is approved or denied by the LCBRA. The fee is also non-refundable through tax increment financing (TIF) under an approved Brownfield Plan or Act 381 Work Plan.

In addition, applicants shall provide 10% match of the cost required for any project using assessment grant funds. This amount is non-refundable.

# B. <u>Brownfield Project Application Form – Part 2 (Brownfield Plan, Act 381 Work Plans</u> <u>and amendments)</u>, <u>Revolving Loan Fund</u>, or <u>Local Brownfield Revolving Fund (LBRF)</u>, <u>etc.</u>

A Brownfield Project Application Form - Part 2 is required if a Brownfield Plan, Act 381 Work Plan, Amendments to Brownfield Plans or Act 381 Work Plans, EPA Revolving Loans, MDEQ Grant/Loans, or Local Brownfield Revolving Fund (LBRF) is requested as a project incentive.

BROWNFIELD PROJECT APPLICATION	APPLICATION FEE
Part 2 Application – Brownfield Plans, Act 381 Work Plans, Amendments to Brownfield Plans and Act 381 Work Plans, EPA Revolving Loans, MDEQ Grants/Loans and LBRF Loans	\$500.00

The Part 2 Application fee is payable upon submittal. The fee will be non-refundable regardless if the application/request is approved or denied by the LCBRA. The fee is also non-refundable through tax increment financing (TIF).

The Application Fee will be applied to, but not limited to, the following available Brownfield Programs:

- Leelanau County Brownfield Redevelopment Authority
  - o Brownfield Plans and Act 381 Work Plans (including amendments)
  - Brownfield Loan Local Brownfield Revolving Fund (LBRF)-- Administered by the Brownfield Redevelopment Authority
- Michigan Department of Environmental Quality
  - Brownfield Redevelopment Grants (BRGs) up to \$1,000,000 in funding available to each project
  - Brownfield Redevelopment Loans (BRLs) up to \$1,000,000 in funding available to each project
  - o Revitalization Revolving Loans (RRLs)
- Environmental Protection Agency
  - Brownfield Cleanup Revolving Loan Fund (RLF) Loan Administered by the Brownfield Redevelopment Authority

**Note:** Application fees may apply to other grants or loans obtained to address and support Brownfield assessment and/or cleanup activities.

- C. Reimbursement Agreement For all projects requiring a Reimbursement Agreement with the LCBRA, 1% of the total amount offered by the LCBRA will be due and payable to the LCBRA upon signing of the Reimbursement Agreement. The LCBRA will not execute a Reimbursement Agreement until this fee has been deposited into the LCBRA account. The minimum fee is \$1,000 and maximum (regardless of total amount) is \$15,000. The fee may be refundable through terms detailed in the Reimbursement Agreement.
- **D. Brownfield Redevelopment Authority (LCBRA)** Special Meeting \$250.00/meeting. This fee must be deposited into the LCBRA account prior to the date of the Special Meeting. This fee is non-refundable.
- **E.** Agency and Other Review Fees Any fees required by other agencies, are in addition to the fees cited above and must be paid directly to the agency by the Applicant. Any direct costs associated with the review of a Brownfield application, plan, work plan etc. as identified herein by other than staff for the LCBRA, shall be paid by the Applicant to the LCBRA, prior to the proposal moving to the next stage of the application process. This includes processing fees associated with attorney reviews and any agency reviews.
- **F.** Additional Review Fees for requests of documents not covered by the above fee schedules, the Director may require any fee deemed appropriate to cover the activities necessary for response to the review request.
- **G.** Waiver The LCBRA reserves the right to waive this Fee Schedule if deemed necessary, or appropriate.

# **Scope of Services**

Centerville Township owns a 14-acre parcel of land that is a closed Township dump site located on Gatzke Road in Centerville Township. There is little information known regarding operation of the dump with respect to years in operation, geographic boundaries, specific materials dumped on the site, etc. Based on local knowledge, the dump is believed to have closed in the mid-1970s or earlier. Centerville Township is evaluating future plans for the site including the potential to redevelop the site for reuse as a public park or selling the property to fund other Township needs.

Centerville Township is seeking funding support through the Leelanau County Brownfield Redevelopment Authority (LCBRA) to conduct assessment of the property to determine appropriate reuse options for the property and identify what activities may be needed to safely reuse the site.

#### Phase I ESA

Conducting a Phase I Environmental Site Assessment (ESA) on the property will assist with understanding the historical context and geographic boundaries of the former dump site. Fishbeck will prepare a Phase I ESA compliant with the ASTM Standard and the rules for All Appropriate Inquiry. Work will include review of historical data, site inspection, interviews with people knowledgeable about the site, review of public records, and preparation of a report. Fishbeck will update the ACRES database upon completion. Completion of the Phase I ESA will also inform the scope of assessment needed that will be included in a subsequent work order based on any Recognized Environmental Conditions (RECs) that may be identified in the Phase I ESA.

### Schedule

Fishbeck will begin preparing an eligibility demonstration for the use of hazardous substance grant funds immediately upon authorization to proceed. EPA requires 10–14 business days to conduct their review and concurrence with the LCBRA's eligibility determination. The Phase I ESA will be initiated immediately upon acceptance of eligibility and will take approximately four weeks to complete.

### **Compensation**

Compensation for services provided under this Work Order will be invoiced at the rates provided in the Agreement for Services between FISHBECK and CLIENT. Fishbeck proposes to complete this work on a time and materials basis; however, Fishbeck will not incur additional costs beyond this Work Order without LCBRA's approval.

Phase I ESA	3,000
Total Estimated Project Costs\$	3,000

# **Scope of Services**

Peninsula Housing is a Michigan non-profit Corporation engaged in the business of providing affordable housing as a community land trust. The property subject to this Work Order is an over 10-acre old farmstead with a house, barn, and other outbuildings located in Suttons Bay, Michigan. The existing buildings are unusable and need to be demolished for redevelopment plans. There is known lead-based paint in the house. The house and other structures have the potential to contain asbestos, which needs to be determined prior to demolition.

Peninsula Housing proposes to develop up to 80 housing units on the site in a mix of rental an owner-occupied apartments, duplexes, etc. beginning in 2024/2025. Current zoning allows two-story, multi-family development at a density of 8 units/acres as special land use. Redevelopment is anticipated to be completed by 2028.

Peninsula Housing is seeking funding support from the Leelanau County Brownfield Redevelopment Authority (LCBRA) for the completion of a Pre-Demolition Hazardous Materials Inspection, inclusive of an asbestos survey and universal waste inventory. Some assessment work has already been completed on the property. Since there is already knowledge of lead-based paint, no further scope of work related to a lead assessment is proposed. There is also knowledge of lead and arsenic in soil, and a Baseline Environmental Assessment (BEA) has already been completed.

There is potential for Peninsula Housing to request grant funding assistance for the preparation of a Brownfield Plan to reimburse certain eligible brownfield costs. Based on the anticipated redevelopment, there are expected brownfield eligible activities that may include lead and asbestos abatement, building and site demolition, and potentially soil management activities. Other funding sources are being sought to leverage different portions of the project. The outcome of any other fundings source requests used to support the project and results of the Pre-Demolition Hazardous Materials Inspection will inform the decision to consider preparation of a Brownfield Plan. If requested, that scope of work would be provided under a separate subsequent amended Work Order for consideration.

#### **Pre-Demolition Hazardous Materials Inspection**

Fishbeck will provide a two-person team led by a State of Michigan accredited Asbestos Building Inspector to inspect the five structures located on the property. The developer intends to demolish the structures in 2024 or 2025 as the structures are currently unusable. AHERA sampling protocols will be followed utilizing destructive sampling, and bulk samples will be sent to an accredited laboratory in accordance with the QAPP for PLM analysis of asbestos under chain-of-custody procedures and standard turnaround times. The pre-demolition asbestos surveys will identify the presence, location, and quantity of any asbestos-containing building materials which may need to be removed prior to building demolition. The universal waste inventory will categorize items such as ballasts, fluorescent light bulbs, mercury thermostats, chemical storage containers, etc. that may require special handling and removal prior to demolition.

### Schedule

Fishbeck will begin preparing an eligibility demonstration for the use of hazardous substance grant funds immediately upon authorization to proceed. EPA requires 10–14 business days to conduct their review and concurrence with the LCBRA's eligibility determination. Fishbeck will prepare a Health and Safety Plan (HASP) and Sampling and Analysis Plan (SAP) within one week from eligibility acceptance. EPA requires 10–14 business days to conduct their review and approval of the SAP. It is anticipated that field work for sampling activities can be completed within 1–2 weeks from approval of the SAP. Laboratory turnaround time is 7–10 business days, and the reports can be completed within 1–2 weeks from receipt of all analytical results.

### Compensation

Compensation for services provided under this Work Order will be invoiced at the rates provided in the Agreement for Services between FISHBECK and CLIENT. Fishbeck proposes to complete this work on a time and materials basis; however, Fishbeck will not incur additional costs beyond this Work Order without LCBRA's approval.
