Subject: Lake Leelanau Preservation Board
Date: Wednesday, July 7, 2021 7:00:05 PM

Dear Clerk:

I am emailing you to make my voice heard on the creation of the Lake Leelanau Preservation Board. This idea or concept is **not** good for our lake or the riparians who live on the lake. Only land owners who own property on the lake will pay, while all others who repeatedly use the lake or profit from the lake's use are left free of taxation to help with the invasive species problem that exists mainly on the south end of the lake. The only way to stop this blight on our lake is to limit the influx of boats to the lake and have washing stations at each entry point. There are too many launching points on the lake (over eleven at last count). As a riparian and former president of the Lake Association, I am against the creation of this lake preservation board.

Dr. Nick Fleezanis
