Subject: special meeting public comments

Please include my comments in the record for the County Commission Special Meeting on 9/9/21 at 6:00 PM.

Re: the Benzie/Leelanau Health Department order for masking in schools: As we all know from multiple news stories of hospital admissions for critical COVID cases, 90% plus are unvaccinated people. And, those are of ever increasing younger age. To argue against masking in schools as the Delta variant becomes more prominent, is like playing Russian Roulette with our children.

This is the time for leadership and doing the right thing.
