Subject: Mask mandate

Dear Mr. Bunek,

I would like my letter entered into the minutes of the Board meeting for tomorrow, September 9th.

I am grateful that the health department followed the recommendation of the CDC with a mask mandate for schools. We need to follow the science and wear masks to protect our children and others who are not able to be vaccinated. I expect and encourage the Board to stand behind the health department. To do otherwise would be a disservice to our children and our community.

Respectfully,

Maureen Penfold
