Subject: Special Meeting Regarding Masks

I honestly do not understand what is happening in our community. We have a a world-wide water crisis and we could be doing our part but masks. Climate change is wreaking havoc, but masks? Gun violence is a major health crisis but the subject is masks. What's going on? Please use your time to make our community better for the sake of all of us and future generations. My dream would be policies that protect our water and lower our CO2 emissions. Please.
