Subject: Commissioners plan to create two new positions in county government
Date: Monday, October 4, 2021 10:19:59 AM

Please share the following comment with the County Commissioners in advance of tomorrow's meeting.

Thank you.

PUBLIC COMMENT:

In light of the record of tax-cutting attempts by our GOP Commissioners, their plan to create two new positions at the cost of nearly \$300,000, to do what are now parts of the County Clerk's job, is extremely puzzling. They have cited no evidence that the Clerk is not performing all of her job competently.

This plan certainly looks like an attempt to punish the Clerk, either because she questioned some of the Sheriff's expenditures of County funds, or because local Trump voters still insist that votes in the 2020 election were not properly counted.

Either way, what the GOP Commissioners are trying to do looks a lot like governmental corruption.
