Subject: Reorganization of County Government
Date: Monday, October 4, 2021 2:59:43 PM

Please deliver to all members of the County Commission and post online as public comment. Thank you.

Dear County Commissioners:

The establishment of additional departments for county government will demonstrate an egregious waste of taxpayer dollars. The current office of the County Clerk provides excellent service and to my knowledge has never been criticized on any level. The duly elected County Clerk has not commented or complained about her workload. This seemingly random move to create TWO new offices is highly questionable and the necessity for these offices has not been demonstrated.

At the very least, a needs assessment for these offices should be presented to the residents of Leelanau County to allow them to determine for themselves if this tremendous expense is justified.

Thank you,
Jacquelyn C. Kendall
Kasson Township
