Leelanau County Commissioners

For the Record Re the Creation of 2 additional Departments

As anyone following the discussion, I am puzzled as to why the County would spend over \$180,000 plus space costs and staffing for 2 new departments without any justification. How do you explain this to the voters? The 4 votes of the Republican Commissioners seem so contrary to the claim of fiscal responsibility in operating County Government and were dropped into the budget discussion with no consultation with the Clerk or County Administrator. What are the job descriptions and justifications for these changes?
