---

Dear Ms. Crocker,

I am a year-round resident of Leelanau County and wish to express my enthusiastic and complete support for our County Health Department. They provide many critical services for all members of our community which are based in thoughtful, scientific fact.

The COVID-19 pandemic has placed a terrible burden on us all. It could have been much worse here in our wonderful County if not for the measured and committed actions of the Health Department employees. I feel reassured by their policies and procedures and know we have benefited from them all.

The Department needs the financial and community support it receives to continue keeping us healthy, safe and well-educated.

Please share this email with all the Commissioners.

In gratitude for your service to the community,

Jennie Berkson  
6145 North Birchwood Drive
