Subject: Anti-mask Effort

Ms Crocker please include this on tonight's meeting's public comments

Ms Lautner,

I suppose your version of prolife includes endangering my child after she was born. I hope you will reconsider your mean spirited plan and cancel this effort before you do in fact kill someone. Your anti-science position in the midst of the greatest tragedy of my 76 years is unbelievable and intentionally lacking in caring for your constituents. Hope you change your plan.

Shame on you.

Bob Martel

Cedar, MI and in your district.
