

To: Leelanau County Board of Commissioners; (1)

Re: Great Barrington Declaration

Dear Sirs or Madams,

I read the article in the Enterprise and I feel the board could be making a bad decision by adopting this declaration. The national health department is suggesting double masks or better ones, not reducing or cutting out their use. The country of Finland tried it and it was a disaster. It caused more problems than it solved. The idea sounds

like it came from Trump. And you know how listening to him has got us. (2)

We all know how important it is to get back on track with our lives, but I truly believe Great Barrington Declaration is not the answer. Lets not add to the over one million people in Mi. who have been affected by the virus: Those who have it, those who got over it, and those who died from it.
