CBS NEWS

Texas attorney general refuses to grant federal agents full access to border park: "Your request is hereby denied"

Ken Paxton, nullifying unconstitutional behavior of the federal government.

Now, citizens need to begin not complying with and nullifying unconstitutional election systems, laws, and policies.

Like David, we need to find our stones, and stand up to the tyranny of our Goliath government.

Brannon Howse Live

Sidney Powell revealed that she's discovered that the Department of Defense patented an algorithm in 2006 that can predetermine the outcome of elections. The DoD then gave that patent to a University in New Jersey, which Sidney calls an "international think tank."

She also says that Dominion Voting Systems assigned all of their patents in 2019 to the Hong Kong Shanghai Bank, and then there was an "Infusion of over \$400 million to State Street Capital which owns Dominion now."

It's all tied together and it looks like we are starting to get a better understanding of how they've rigged our elections for years and more importantly, WHO has been doing it.

This is mind blowing stuff. If you watch the full 8 minute clip, you'll understand why they are trying to destroy Sidney.

As she says, it's appears she is over the target

"Top Three Reasons To Eliminate Electronic Election Systems"

- 1) The majority of people don't trust them;
- 2) They are easily manipulated by bad players;
- 3) The state governments use them to centralize control.

It's simple:
 Vote Amish.
 All paper, no electronics.
