**Subject:** Letter to the BOC

Dear Commissioners,  
Please support the Benzie/Leelanau Health Department.  
**The mission of the Benzie-Leelanau District Health Department is to prevent disease, prolong life, and promote public health through:**

- Prevention and control of environmental health hazards
- Prevention and control of diseases
- Prevention and control of health problems of particularly vulnerable populations
- Development of health care facilities and health services delivery systems
- Regulation of health care facilities and health services systems to the extent provided by law

To introduce a resolution that contradicts our health professionals is arrogant and fool hardy. Putting the residents of our county at risk because of a clearly political agenda is criminal.

Have all of the commissioners had a Covid-19 test? Clearly 3 of them do not wear masks or follow the protocol that our Health Department recommends. It seems that if they aren't going to wear masks they at least need to submit a covid test proving that they don't have Covid-19.

If you want to submit a resolution in opposition of our Health Department concerning the covid-19 regulations then, I want to see Chairman Bunek's educational background qualifications for overturning the medical experts at our Health Department.

Sincerely,  
Dana Getsinger
