

CENTERVILLE TOWNSHIP

SPECIAL USE APPLICATION

LAND APPLICATION OF SEPTAGE WASTE

This application is for all Township residents and businesses operating within the Township who wish to dispose of Septage on land within Centerville Township. Applicants must meet all requirements of the most recent revision of the Centerville Township Zoning Ordinance including, but not limited to, Section 13.8: Septage Disposal. Note that the land application of septage waste is allowed as a special use in the Agricultural District requiring the applicant to meet the requirements of Section 13.7: Requirements for Site Plan.

This application must be administratively complete and accompanied by a \$200.00 fee before it will be considered by the Centerville Township Planning Commission. All required state and federal permits shall be obtained prior to the special use being granted, and copies of all applicable permit approvals must be attached to this application. All submissions to the Planning Commission must include five (5) copies of this application and must be forwarded to the Chair of the Planning Commission at least 14 days prior to any public meeting where the application will be considered.

Applicant

Name: _____

Address: _____

Telephone Number: _____

Property Owner

Name: _____

Address: _____

Telephone Number: _____

Disposal Management Entity

Name: _____

Address: _____

Telephone Number: _____

- 1.0 If the Disposal Management Entity is different than the Owner, reference or attach legal evidence the Disposal Entity has permission to dispose of Septage on the site (contract, deed, easement, etc; including liber and page number.)

- 2.0 Legal description of the property on which the site is located (include Tax ID #, total parcel acreage and total acreage of proposed disposal site).

- 3.0 Attach a USGS topographical map (or equivalent) of the disposal site and surrounding area, which shall include the information required in Section 13.a.2.E of the Centerville Township Zoning Ordinance.

- 4.0 Attach a site sketch indicating the location of the disposal site on the parent parcel and the location of all buildings and drinking water wells on adjacent parcels. Indicate the setback distances if the sketch is not to scale.

5.0 Estimate the amount of septage that will be applied at the site, the origins of the septage to be applied at the site and the method in which the septage will be applied:

6.0 Provide the depth to groundwater for the application acreage and the methodology used to determine said depths (sampling method, number of borings, well log data, topographic evaluation, etc.)

7.0 Provide a waste pretreatment report indicating how all septage will be treated and screened prior to disposal on the site, as well as a cover crop management plan and tillage plan (include attachment if necessary).

- 8.0 Include any other necessary or pertinent information for the implementation of the Zoning Ordinance (this may include chemical composition of the soils and estimated chemical composition of the Septage Waste to be disposed of at the site; or other information as determined and required by the planning commission, the zoning administrator or other representative appointed by the Township Board).

Statement of Compliance:

I hereby certify that the information contained herein is true and accurate. I understand that by applying for this Special Land Use I am required to abide by all pertinent State, Federal and Local rules, regulations and Ordinances regarding the land application of septage waste, including but not limited to: Part 117 of NREPA, 40 CFR 503, and Article XIII Septage Disposal Ordinance of the Centerville Township Zoning Ordinance.
