Dear Village Council:

I hope the Council does not read or consider the "resolution" letter of April 3, 2024 written by five families who, to my knowledge, do not attend village meetings, nor do they vote in Empire.

To my eye, the claims expressed in this letter show ill will toward certain council members and seem fabricated with lies and hearsay along with defamation of the character of the council.

Our Empire Village Council is better than the thinking put forth in the "resolution" letter, which seems perpetrated by personal and biased outlook, not by progressive thinking encompassing the good and future of Empire.
